+45% VELOCITY
Sprint Reporting Saved

EXECUTIVE SUMMARY

Results-driven Full-Stack Software Engineer with 4+ years of hands-on production experience architecting scalable web platforms, high-concurrency microservices, and responsive enterprise dashboards. Proven track record of cutting API response times by up to 60% and reducing page load latency by 42% across 10+ production applications using Golang, PHP (Laravel), Python (Django), Angular, Next.js, MySQL, PostgreSQL, MongoDB, and Redis.

TECHNICAL SKILLS & ARCHITECTURE MATRIX

Backend & APIs	: Golang (Go), PHP (Laravel), Node.js, Python (Django), RESTful APIs, Microservices, WebSockets
Frontend & UI	: Angular, Next.js (App Router / SSR), React, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap
Databases & Cache	: MySQL, PostgreSQL, MongoDB, Redis (In-Memory Caching), Query Indexing & Hybrid Data Modeling
DevOps & Delivery	: Docker, RabbitMQ, GitLab CI/CD, Git, Agile / Scrum, Technical Docs (BRD, FSD, API Contracts)

PROFESSIONAL WORK EXPERIENCE

Full-Stack Web Developer | **Venturo Professional Programmer** `Oct 2023 - Present`

- Translate complex business requirements into clear technical specifications (BRD, FSD, and REST API contracts).
- Architect and maintain high-concurrency backend services while optimizing SQL/NoSQL queries across products.
- Lead code reviews, automated testing workflows, and continuous deployment pipelines via GitLab CI/CD.

Frontend Web Developer | **Venturo Professional Programmer** `Feb 2023 - Sep 2023`

- Engineered responsive enterprise SPA modules for logistics, operational tracking, and executive dashboards.
- Improved Core Web Vitals and reduced initial page load latency by 42% via route code splitting & lazy loading.
- Integrated real-time operational tracking updates and interactive data views using WebSocket streams.

Software Engineer Intern | **Venturo Professional Programmer** `Aug 2022 - Jan 2023`

- Built foundational features for internal Agile project management and daily team productivity web platforms.
- Developed core modules for the national training & accreditation platform (Sislatkernas) for KOMINFO.
- Implemented relational and NoSQL data persistence layers across MySQL, PostgreSQL, MongoDB, and Redis.

SELECTED PRODUCTION PROJECTS & KEY IMPACT

Space - Venturo (Agile Project Management) `[Laravel, Angular, MySQL, MongoDB, Tailwind]` `space.venturo.id`

- Cut weekly sprint reporting overhead by 45% across 10+ engineering squads with automated velocity burndown charts.
- Optimized complex Kanban board and backlog queries, reducing board load latency by 38% for 1,000+ task workspaces.

Timebox - Venturo (Time-Blocking Productivity) `[Laravel, Angular, MySQL, MongoDB, Tailwind]` `timebox.venturo.id`

- Boosted daily task completion rates by 35% through structured time-blocking and automated deadline telemetry.
- Designed indexed MySQL & MongoDB aggregation pipelines achieving sub-100ms daily/weekly schedule synchronization.

Blessing Academy (High-Concurrency EdTech) `[Golang, Next.js, PostgreSQL, Redis, Tailwind]` `blessing.venturo.pro`

- Slashed course catalog & student progress API latency by 60% using Golang concurrent services backed by Redis cache.
- Eliminated 100% of manual grading bottlenecks via instant automated quiz grading & QR-verified digital certificates.

EDUCATION

Institut Asia Malang (S1 IT)
`Sep 2026 - Present | Employee Class (Kelas Karyawan)`
Active undergraduate student majoring in IT while working full-time as Software Engineer at Venturo.

SMK Negeri 11 Malang
`2020 - 2023 | Rekayasa Perangkat Lunak (RPL)`
3-year Software Engineering specialization in OOP, relational databases, and full-stack web development.

LICENSES & CERTIFICATIONS

- **BNSP Junior Web Developer Certification**
  Badan Nasional Sertifikasi Profesi (BNSP) | 2023
- **Back-End Microservices with Go (Golang)**
  Dicoding Indonesia / Google Developers | 2024
- **Enterprise Full-Stack Laravel & Angular**
  Venturo Engineering Academy | 2024
- **SQL, NoSQL & Redis Performance Architecture**
  HackerRank / Cloud Native Credentials | 2025
